INFORMATION BULLETIN 2006-01

Subject: Reporting Committee

Over the next two years, Alberta Energy is undertaking a system redevelopment, including the development of the Royalty and Marketing (RAM) system which will replace the oil royalty calculation portion of the Mineral Revenue System (MRS), the Oil Royalty Benefit Information System (ORBIS), and the Crude Oil Operations (COO) system. Alberta Energy would like to take this opportunity to consult with industry to improve the statements/reports that are currently supplied.

Alberta Energy is requesting volunteers from industry, including representatives of the CAPP, CAPPA, and SEPAC organizations, to form a committee to review the current Crown Oil Royalty statements, the Oil Royalty Program reports, and the APMC Delivery Confirmation, Reconciliation and Financial Processing reports. Suggestions for improvements will be taken to the RAM system design group.

If you are interested in volunteering, please submit your name to Beverley Murray by February 15, 2006.
