

ATTENDEE RESPONSE SHEET
ALBERTA ENERGY TENURE INFORMATION EXCHANGE
APRIL 14, 2011

NAME: _____

COMPANY: _____

PLEASE RATE YOUR RESPONSE (1-6) ON THE CHARTS AND PROVIDE ANY EXPLANATORY COMMENTS.

PETER WATSON'S OPENING REMARKS

1. Did you find the information useful?

Not Applicable	Strongly Disagree	Somewhat Disagree	Somewhat Agree	Agree	Strongly Agree
1	2	3	4	5	6
7.5%	0	0	23%	53.0%	17%

Comments:

- A lot of very simple/general information not a lot of new or very in-depth news on the topics discussed. Having said that, it is great to see the government come every year and give us face time even if some of the content they speak on is general.
- We did not hear from Peter Watson and the presentation information was given on his behalf.
- Rhonda-Great.
- Peter didn't present but information was presented in an informative manner.
- Statistics on land sale activity interesting.
- Good job Rhonda!
- Tenure Operations List/Contacts and Business Analysis contacts. Can they be posted on the CAPLA website, please?
- Yes, good opening to a subject that not everyone would enjoy.
- Good job covering.
- Especially road allowance information.

CONTINUATION TIDBITS

2. Did this portion give you useful information on the continuation processes presented?

Not Applicable	Strongly Disagree	Somewhat Disagree	Somewhat Agree	Agree	Strongly Agree
1	2	3	4	5	6
0%	0%	0%	6%	48%	46%

- *Comments:* Once again, simple information but probably worth the talk. The examples were very good for those not very familiar with section 8(1)(h) continuations or Advanced Rulings.
- Great refresher.
- Brenda is a great speaker and most entertaining. I love her no nonsense approach spiced up with some nice dry humour.
- Learned to amend submissions instead of submitting a new application.
- Great to see examples of unique and more uncommon scenarios.
- Brenda is an excellent presenter - use her more!
- Great examples.
- 8(1)(h) examples were helpful. Advance ruling examples helpful and useful.
- Great! Thanks for all the examples.
- Yes.
- Very good.
- Section 8(1)(h) was very informative.
- 8 (1)(h) review was informative and as fun and humorous as can be.

SHALLOW RIGHTS REVERSION UPDATE

3. *Did this presentation help you to understand how shallow rights reversion notices will be administered?*

PLEASE NOTE: NOT PRESENTED DUE TO CHANGE IN TIMING OF NOTICES

Not Applicable	Strongly Disagree	Somewhat Disagree	Somewhat Agree	Agree	Strongly Agree
1	2	3	4	5	6
n/a	n/a	n/a	n/a	n/a	n/a

Comments:

- Not discussed, but glad to hear it is on hold until the proper resources are put in place first.
- Shallow rights reversion notices will be delayed one year- presentation not delivered.
- We were informed that this is postponed for 1 year.
- Not done. Still would have liked a refresher.
- Unfortunate decision for the smaller companies who have been coveting the big company held lands.
- This was the best news ever! I think they really need to consider whether the cost of rolling out and administering SRR's really will have a monetary benefit for the province when they go up for land sale. I really wonder about theory versus reality and if it will really benefits Albertans.
- 1 year delay.
- Yipee!
- Like the DOE's decision to delay.
- Fantastic news! SRR has been deferred to 2012, Yay!
- Happy to hear SRR notices are postponed.
- Good news.
- Delayed for 1 year.
- Actually, this section was omitted since the minister decided to delay the implementation of SRR for one year.
- Great news!
- Yeah!

ONLINE TRAINING INFORMATION

4. *Did this presentation inform you about online learning and how it can be useful to your organization?*

Not Applicable	Strongly Disagree	Somewhat Disagree	Somewhat Agree	Agree	Strongly Agree
1	2	3	4	5	6
0%	0%	1.45%	9%	55%	35%

Comments:

- Explained why I hadn't been able to access the online training.
- I liked the explanation for why the self registration was required.
- Did not know about this; will be going into and try it.
- Will definitely review.
- Very good info!
- It was really good to know that this is available. I didn't know such a thing existed. So that was great- thank you.
- Will utilize for new employees.
- Didn't know it existed.
- I didn't realize that info was available.
- Was not aware of online learning option, will have all land staff use it.
- Excellent idea for new employees or all of us to review. Glad we don't have to change password ever (everyone has far too many passwords.)
- Well done, Retha.
- Felt this didn't really apply to me but was good to know it is available.
- Can't wait to try it.
- It would have been a bit more helpful to do an actual demo of the ETS training rather than screenshots.

USE OF UNDISPOSED CROWN RIGHTS

5. *Did the presentation give you a better understanding about the use of undisposed Crown rights?*

Not Applicable	Strongly Disagree	Somewhat Disagree	Somewhat Agree	Agree	Strongly Agree
1	2	3	4	5	6
0%	0%	0%	12.33%	58%	30.14%

Comments:

- Good that Production Allocation Unit Agreements (PAUA) were explained. They are not used often and can be confusing.
- I wasn't too familiar with some of the recent changes, so it was nice to see and hear about this topic and how much easier the process has gotten.
- Just a little too fast.
- Very good info.
- It was good to hear the update to this.
- New Road Allowance rules for no application very helpful for horizontal wells.

- This is fantastic news! Must be Company X who drowned them with applications for road allowances.
- Very pleased with new road allowance procedures.
- Information on road allowances approval very helpful. Production Allocation Agreements needed when? Helpful.
- Well done. Her sense of humour helped, as did Brenda Allbright's.
- Case studies may be advantageous.
- Did not realize we could search on ETS for all undisposed approvals granted.

6. *Has the introduction of Information Letter 2011-09 streamlined your business?*

Not Applicable	Strongly Disagree	Somewhat Disagree	Somewhat Agree	Agree	Strongly Agree
1	2	3	4	5	6
23%	3.23%	0%	10%	40%	24%

Comments:

- Haven't encountered it yet at the companies I work for.
- Yeah, yeah, yeah.
- This is good information!
- I need to review this Information Letter.
- Haven't used it yet.
- With the proliferation of long horizontal drills recently, this is an excellent move on Department's part.
- Yes.
- Yes, less applications to fill out, lol.
- I had not heard of Information Letter (IL) 2011-09 before this but yes, it will be helpful.
- Helpful to know when authorization required or not. Good to know that expiring mineral rights on one side of road allowance can cause trespass issue.
- Until hearing of the information letter today, I was unaware of this information letter.
- Why not further streamline process and attach road allowance to the adjacent section rather than hold out of the agreements. I.e. Road allowance on west side of section included in the section.
- Don't know, have not read (I'm new to industry)

TENURE BUSINESS PROCESS REVIEW UPDATE

7. *Did this presentation help you to understand the Tenure business process review?*

Not Applicable	Strongly Disagree	Somewhat Disagree	Somewhat Agree	Agree	Strongly Agree
1	2	3	4	5	6
0%	1.39%	3%	18%	60%	18%

Comments:

- This was a nice update on where things are at and some of the things they are looking into.
- Just a little fast. Maybe flesh out a little more the direction that we are going.
- Good to know where this is at.

- Change process to have licence grouping done at the same time as the validation application.
- More details on continuation of licences where horizontal and multi-leg wells from pads needed.
- Thanks for the update – very interesting.
- Little valuable information but may be due to infancy of process and lack of current deliverables.

GENERAL COMMENTS

1. *What one thing could we do to improve our business relationship with industry in the future when we work on joint projects involving industry?*

Comments:

- Continue to keep us informed as much as possible, which is why this annual PNG Information Exchange is great.
- Just keep being engaging.
- Open communication.
- It would be nice if you could arrange to come and speak at Company Y.
- I have been very satisfied with the communications and help I have received.
- Keep up the good job. Your information session is very informative and helpful.
- Like the survey idea on items being reviewed for the BPR.
- I really think you guys do a grand job.
- You've always been great about including industry at planning stage - keep up the great work!
- Increase/expand size of committee to allow increased participation from industry.
- I have no complaints! The Crown has always been wonderful with me!
- Have people that answer the phone know who the right person is to talk with i.e. may I talk with someone who can help me with rentals? They never seem to know.
- Pretty good through my experience. Keep up good work!
- More open and streamlined and consistent communications. Work with nearby provincial bodies to aid in a more similar efficient and effective regulation handlings i.e. Western Canada Energy group/board.
- Working very good right now.
- Surveys; then you get feedback from people who can't attend or be a part of the discussions.
- Look into overhole applications.
- More events with industry.
- Stop introducing updates/"improvements" in September. It really messes things up for the winter drilling program (which we start planning in May/June). Pass the message to all applicable Ministries.
- Set up a technical hot line for geologists/engineers to call for qualification regarding data required for continuations.

2. *What topics interested you the most at this year's Information Exchange? Please check one.*

- 1 Rhonda Wehrhahn's (on behalf of Peter Watson) Opening Remarks
- 45 Continuation Tidbits
- 14 Shallow Rights Reversion Update

- 23 Online Training Information
- 41 Use of Undisposed Crown Rights
- 20 Tenure Business Process Review Update

Comments:

Continuation Tidbits

- But, also the shallow rights change in implementation date.

Shallow Rights Reversion Update

- Because of announcement will review shallow rights reversion update.
- Great relief!
- Really looking forward to shallow rights reversion notices review next year as I will have many in my area.

Online Training Information

- Will online training information.
- Didn't know Online Training Information even existed.

Misc. Comments on Presentations

- Please do not use light blue as a font color, it is difficult to see and does not photocopy well.
- I found this session to be very informative and one of the best I have attended - good job!
- All was excellent.
- I really enjoyed all the topics thank you.
- All very interesting info.
- The speakers were all excellent – Professional, polished and humourous!

3. *Do you have any suggested topics for future Information Exchanges? Please list them below.*

- Rolling 16's.
- Groupings.
- Oilsands, continuation, advance ruling.
- Surface question-ask SRD about how close to place a pad to a road allowance.
- Most times lunch is 12-1 not 11:30 -12:30. 1 hour may not be enough for some people. Arrangements were made for 12-1 had to cancel. Would have been helpful to have known lunch time in advance.
- It's always good information when the regulations and updates are presented; any changes are always helpful. One hour for lunch is tight timeline; it is helpful to have been able to return at 1pm. Overall this was an excellent presentation and its' really helpful receiving hints and highlights from the DOE! Thank you.
- I'd need to think about this. I too have need of a few brain cells. Cheers.
- More info on Oil Sands, Continuations. More user friendly continuation form. A form would be great for our "over educated" geologists. They seem to be able to play dumb when reading the IL on the requirements of continuing an Oil Sands Lease (OSL). Thanks.
- Issues pertaining to horizontal drilling licence, road allowances, etc.
- I would like to see some presentations from the surface group.

- Carbon sequestration.
- Continuation for unconventional oil and gas shales.
- Dependence on LSAS for unregistered Crown tenures on title.
- Shallow rights reversion updated. When will notices first be sent out? 2012 or 2013?
- Very good.
- Updates on spacings and holdings.
- Overall learned a lot. Would have appreciated a presentation on OilSands continuations.
