Minerals Tenure Information Bulletin 97-7

Subject: Mines and Minerals Administration Regulation

The Minerals Tenure Branch, which operates within the Mineral Operations Division of the Alberta Department of Energy, is currently engaged in a review of the legislation that it administers and the associated business processes. The Branch is working closely with the Canadian Association of Petroleum Producers, the Small Explorers and Producers Association of Canada, the Canadian Association of Petroleum Landmen, the Canadian Association of Petroleum Land Administration, and the Petroleum Joint Venture Association.

In April 1997 the Mines and Minerals Amendment Act, 1997 was passed in the Alberta Legislature. The passing of this bill allowed us to proceed with the drafting of new regulations to replace the existing P & NG Agreements Regulation, the General Regulation, the Crown Land Registration Regulation and the Forms Regulation.

In May 1997 we circulated the draft Petroleum and Natural Gas Tenure Regulation, which will replace the P & NG Agreements Regulation, and asked for your input on it. We thank those of you who took the time to send us your comments. We have incorporated as much as possible of your feedback into the draft regulation.

We have now drafted the Mines and Minerals Administration Regulation, which will replace the General Regulation. The attached document shows each provision of the proposed regulation, the current location of that provision (if any), and the reasons for the changes.

Once again we invite you to submit your comments and suggestions to:

All comments must reach us by Friday, August 22, 1997. We strongly encourage you to complete the one-page survey attached to this letter and fax it back to us, whether or not you also send more detailed comments by letter. The names of the contributors will be kept confidential, but the results of the survey and all additional comments will be shared with the committee.

A draft of the Crown Minerals Registration Regulation (replacing the Crown Land Registration Regulation) will be published and circulated shortly, and your input to that regulation will also be requested.
