Date: June 23, 2006

**COAL AND MINERAL DEVELOPMENT INFORMATION BULLETIN 2006-02**

**SUBJECT: ROYALTY REPORTING**

This bulletin is to advise you that the Department will be implementing a new program for the administration and maintenance of royalty information.

**PHASE 1** will come into effect July 1, 2006 and will include the following activity types:
- SUB – sub-bituminous coal, QRR – quarriable minerals and PMR – placer minerals.

**PHASE 2** is scheduled to be implemented in the Spring of 2007 and will include the following activity types: BIT – bituminous coal, SLR – salt and MMR – metallic minerals.

The program will enable the Department to more efficiently administer and record mine production and royalty information for the purpose of royalty collection. Primary features of the new program will be:
- Financial statements related to client’s activity.
- Default notices one work day following the due date of the royalty reporting period.
- Notification of upcoming reporting requirements (e.g. submission of the Coal 2 form or confirmation of nil production).

Questions about the new statements and notices should be directed to:

Anna Maslowski     Hazel Henson
Acting Director     Senior Minerals Coordinator
